INTEREST CREDITING

The MarketValue Index Annuity Contract is a flexible premium indexed deferred annuity which is intended for long term retirement savings. It is not meant to be used to meet short-term financial goals. This annuity is deferred, which means payouts begin at a future date. You don't pay taxes on the interest it earns until the money is paid to you. This annuity is flexible premium, which means that additional premium can be added to the Contract after it is issued. With this annuity, you can choose different accounts for your money. You may make your allocation elections on the last page of this document. On the Contract Date, the Contract's Accumulation Value equals the Initial Premium paid. At any time after the Contract Date, the Contract's Accumulation Value equals the sum of the Accumulation value(s) of the Account(s) chosen.

Fixed Rate Account

- **1-Year Interest Account** – The fixed rate is guaranteed for one contract year. On contract anniversaries the rate may change subject to the contractual Minimum Guaranteed Interest Rate of 1.0%. All subsequent premiums received are applied to this account until the contract anniversary, then allocated per your instructions.

Index Accounts

A wide variety of index accounts offer earnings – called “index credits” – based on the changes of a specified index. Credits for index accounts are never less than zero and added to accounts at the end of the one/two year period. Cap and participation rates are reset either annually or every two years.

S&P 500® Index Accounts

- **1-Year Point-to-Point Cap with 1.00% fee** – Index Credits are based on the percentage change in the S&P 500 Index from the previous contract anniversary, up to a specified cap. The minimum cap is 1.0%. This account offers a higher cap rate than the non-fee version, in exchange for a 1.00% annual fee.
- **1-Year Point-to-Point Participation with 1.00% fee** – Index Credits are based on the percentage change in the S&P 500 Index from the previous contract anniversary, multiplied by the participation rate. The minimum participation rate is 10.0%. This account offers a higher participation rate in exchange for a 1.00% annual fee.
- **1-Year Point-to-Point Performance Trigger** – Index Credits are based on the Performance Trigger Rate if the S&P 500 index increases from the previous contract anniversary. The minimum Performance Trigger Rate is 1.0%.
- **1-Year Monthly Average Participation** – Index Credits are based on the percentage change in the S&P 500 Index monthly average from the previous contract anniversary, multiplied by the participation rate. The minimum participation rate is 10.0%.
- **1-Year Monthly Cap** – Index Credits are based on the cumulative sum of capped monthly changes in the S&P 500 Index from the previous contract anniversary. Each monthly gain is subject to a cap, but monthly declines are not subject to a floor. The minimum cap is 0.5%.

LIQUIDITY FEATURES AND IMPORTANT TERMS

You may receive partial surrenders or periodic income payments from your annuity by submitting a request acceptable to the Company. When you make withdrawals, surrender or annuitize your annuity, the amount withdrawn will not be credited with any index return in the current Indexing Period. Withdrawals do not participate in any index gains during the Contract Year of the withdrawal.

This annuity is tax-deferred, which means you don't pay taxes on the interest it earns until the money is paid to you. Under current tax law, annuities grow tax deferred and an annuity is not required for tax deferral within an IRA, 401(k), or other tax-deferred retirement plan. You can exchange one tax-deferred annuity for another without paying taxes on the earnings when you make the exchange. Before you do, compare the benefits, features, and costs of the two annuities. **You may be subject to a 10% Federal penalty tax if you make withdrawals or surrender your annuity before age 59½.** There may be exceptions to this penalty. If this is a qualified annuity, all distributions may be taxable. There is no additional tax advantage to purchasing an annuity as part of a qualified plan, other than the tax advantage provided by the qualified plan itself. Consult your tax professional for more details.

Penalty-Free Withdrawals - Each Contract Year after the first, you may withdraw up to 10% of the Accumulation Value after the most recent Contract Anniversary without being subject to a Surrender Charge or MVA. If the Contract is subsequently surrendered during the Contract Year, the Surrender Charge and MVA will be applied to any previously uncharged Partial Surrender amounts taken in the same Contract Year.

Partial and Full Surrenders – Any withdrawal over the 10% penalty-free amount will be subject to surrender charges and a Market Value Adjustment. In the event of a full surrender, you will receive the cash surrender value of your contract as a lump sum.

- **Surrender Charges** – This annuity product is a long-term contract with substantial penalties for early surrender. A surrender charge is assessed, according to the schedule below, on any amount withdrawn as a partial or full surrender that is in excess of the penalty-free amount. The surrender charges are for 10 years and decline as follows:

YEAR	1	2	3	4	5	6	7	8	9	10
%	9%	8%	7%	6.5%	5.5%	4.5%	3.5%	2.5%	1.5%	0.5%

The following is a hypothetical example of how surrender charges would be applied should you choose to surrender in year 5 of the Contract and there has been no interest credited to your Contract:

Initial Premium = \$100,000

Accumulation Value in year 5 = \$100,000

Surrender Charges in year 5 = 11%; therefore we calculate \$100,000 - \$11,000

Cash Surrender Value = \$89,000

Aside from Surrender Charges, there are no explicit expense charges for the Contract.

- **Market Value Adjustment** (form number ICC17-ET-FIXED-MVA(02-17)) – We may make a Market Value Adjustment (MVA) on amounts withdrawn or surrendered from this Contract. It may result in either an increase or a decrease to the amount withdrawn or surrendered. A MVA will be made only when a Surrender Charge is deducted. Generally, the MVA decreases the Accumulation Value surrendered when interest rates rise, and increases it when interest rates fall. The MVA will not reduce the amount surrendered below the Minimum Guaranteed Contract Value.
- **Cash Surrender Value** – The Cash Surrender Value equals the greater of (a) the Minimum Guaranteed Contract Value; or (b) the Accumulation Value less any applicable Surrender Charge, and adjusted for any applicable MVA, determined as of the date of surrender. The Minimum Guaranteed Contract Value will be 87.5% of Premium(s) Paid, less any partial withdrawals, plus interest earned at a rate no lower than 1% and no higher than 3%. Once your Contract is issued, your Minimum Guaranteed Contract Rate will not change.

Accumulation Value Guarantee Rider – At the end of the 10th Contract Year, your Accumulation Value will be no less than 110% of Premiums paid, less withdrawals, less any applicable fees.

Annuitization – You may choose to have the proceeds of this Contract paid under a payment option on your income date. This is called annuitizing your Contract. When you annuitize, you can choose from several options. If an optional benefit has not been selected prior to the income date, the Accumulation Value of the contract will be applied to provide payments for a minimum of 10 years and as long thereafter as the Annuitant lives. Once you annuitize your Contract, you may not surrender it or have access to any values of your annuity, other than your income payments. Available payment options include:

Option A: Interest – Fixed interest payments may be made for at least 5 years.

Option B: Fixed Period – Payments may be paid for a period between 5 years and 30 years.

Option C: Life Income – Payments may be made for the lifetime of the Owner or Beneficiary. A minimum number of payments may be guaranteed, if desired.

Nursing Home Waiver Rider (form number ICC18-430-NHW(06-18))– After the first Contract Year, you may make a partial or a full surrender without incurring a Surrender Charge or MVA if you become confined to a Hospital or Nursing Care Center for at least 90 consecutive days.

Terminal Illness Rider (form number ICC16-ET-TI(10-16))– In the event that you become terminally ill, you may access up to 75% of your Contract's Accumulation Value without a Surrender Charge. A waiting period may apply.

Income Rider (form number ICC16-ET-IBR-FIXED(07-16)) – An optional Rider available for election only at the time of application. This Rider provides for Income Withdrawals to be paid to you for your lifetime, even if the Accumulation Value is depleted. The annual Rider Charge is equal to 0.95% of the Accumulation Value and is deducted from the Accumulation Value on each Contract Anniversary until the Rider is terminated.

Death Benefit – The death benefit is equal to the Accumulation Value. If the sole beneficiary is the deceased Owner's spouse/civil union partner, the spouse/civil union partner has the option to continue the Contract.

INDEX INFORMATION AND DISCLOSURES

Any examples of historical performance of an Index should not be considered a representation of future performance of the Index. Future performance of an Index may be greater or less than any index performance shown in connection with the sale and issue of your annuity Contract. TO BE USED FOR FLEXIBLE PREMIUM PRODUCTS

Owner Name (please print): _____

Joint Owner Name (please print): _____

I/we understand this annuity contract allows for flexible premiums and therefore can be issued with the first premium received. If issued with the first premium received, any additional premium received will not be reflected on the contract data page, will be added to the contract after issue, and will earn interest based on the fixed rate from date of receipt until the first contract anniversary.

Instead of following the procedure describe above, I/we request EquiTrust to hold issue until all premium relating to the original purchase have been received. I understand the contract effective date for purposes of interest credits (or index credits) will be the date of all funds received.
