

RENEWAL RATES YOU CAN COUNT ON

Transparent. Consistent. Verifiable.

When you're evaluating available fixed index annuity options, rates are a critical part of the equation. That's why a **transparent, consistent** rate-setting approach designed for long-term value — not short-term appeal — is pivotal. Equally important is having confidence that the issuing carrier has a **verifiable** record of sustaining competitive renewal performance.

While economic cycles and interest-rate environments naturally fluctuate, EquiTrust remains focused on a disciplined "option-budget" strategy. This commitment drives sustained value for contract owners by delivering stability and renewal rates that reflect consistent, reliable performance.

92% of our renewal rates are at least 90% of their initial rate

Curious how EquiTrust crediting strategies stack up?

EquiTrust combines strong rate-setting fundamentals with a watchful eye on market trends. By understanding how different pricing levers influence each crediting strategy and applying disciplined option budgets, we help keep renewal rates steady and support long-term value for clients.
